Columbus Day is a federal holiday in the United States that celebrates the Italian explorer and navigator, Christopher Columbus and his first voyage to the Americas on October 12, 1492.

Columbus was born in 1451 in the Republic of Genoa, Italy. When he was a teenager, he participated in several trading voyages. Columbus' first voyage into the Atlantic Ocean was in 1476. He nearly lost his life when French privateers attacked his fleet off the coast of Portugal. His ship was burned and he was forced to swim to the shore of Portugal in order to survive.

Columbus made his way to Lisbon, Portugal where he married Felipa Perestrello. The couple had a son they named Diego in around 1480. Felipa died a few years later and Columbus decided to return to Spain. Later in 1488, Columbus had a second son with Beatriz Enriquez.

Columbus participated in several other expeditions to Africa where he gained knowledge of the currents flowing east and west from the Canary Islands. At this time, travel was difficult to India and China due to the fact that Muslim domination controlled much of the trade routes. Columbus believed sailing west across the Atlantic would be faster
