RETELLING

sticks

Preparation:

1. Print the story element circles in either color or black & white on card stock. You can use your printer settings to scale them down in size if desired.
2. Cut out the circles.
3. Laminate for long-lasting durability.
4. Glue each circle onto a craft stick. Hot glue will work great!

Retelling Sticks are a resource to help students retell stories, while identifying and describing story elements. The visual cues will aid students in providing key ideas and details as they retell and sequence. Multiple sets of the Retelling Sticks can be made. By having multiple sets, teams or partners can each use a set to facilitate retelling, which incorporates cooperative learning and engagement into your lesson.

Ways to Use:

WHOLE GROUP | SMALL GROUP | TEAMS | PARTNERS | ONE-ON-ONE
