

Hungry?

Mum likes to make family parties; she says that it is good to spend time together as a family. I like it when I play all kinds of games with my cousins and laugh with my uncle. He always tells jokes. He is really funny. But what I like best about the parties my mum makes is the food.

Mum likes to make different things to eat and it's always delicious. She cooks **broccoli** with **cauliflower** and she covers it with cheese, sometimes, she cooks meat like **steak, roast beef, ribs, lamb chops** or **pork chops**. Other times she cooks **chicken, chicken breasts, chicken wings, turkey** and **duck**.

We don't eat seafood very often because it is not cheap. But when we do, we eat some fish like **flounder** and **trout** or **shrimp, clams** and **lobster**.

I like it a lot when she makes desserts because she always makes **chocolate cakes, pies, pudding** or **fruit cocktails**! I love fruit and I think my favourite are **plumbs, raspberries** and **peaches**.

I'm getting hungry now. I can't wait for tonight's party to start!
