TAKE THE CHALLENGE

Read and answer the question.

Marcus and his mum are preparing cups of hot chocolate. They are putting 8 marshmallows in each cup.

How many marshmallows do they need for 9 cups?

Read and complete.

This is another way in which you can express a multiplication.

Example:

4 multiplied by 2 = _____

4 times 2 = _____

$4 \times 2 =$ _____

As you can see, 4×2
has the same result as
 2×4 .
