

Read and answer the questions.

12 kids were invited to Alan's party. Alan's parents offered to take all the kids back to their homes when the party is over.

The problem is that they can take 4 kids at the time in their car.

How many rides will be needed to take all the kids to their homes? _____

Explain what you did to discover the answer.

Alan's mum wants to prepare some goody bags for Alan's friends. She wants to put 2 bars of chocolate, 6 candy canes and 3 cookies in each bag.

How many bars of chocolate, candy canes and cookies will Alan's mum need? Bars of Chocolate: _____ Candy canes: _____ Cookies: _____

Explain what you did to discover the answer.

Go back to the chart on page 56. Write the number 12 and complete the table. Use it to check the answers for the questions about Alan's party.

Look and write.
