

## Test 5 Reading Part 6

For each question, write the correct answer.

Write ONE word for each gap.

### My trip to Monterrey!!!

Travelling has always been fun. It doesn't (27) \_\_\_\_\_ where you are travelling to; from the beach to another city, or just simply to a small town, it's always a time for getting to know and do new things, and eating and drinking new things too.

I remember when I went to Monterrey. My friends were waiting for me at the airport there. It was great to see them (28) \_\_\_\_\_ it was the first time I met them in person. We had been friends for about three months; I met them on a social website, and I finally discovered they were amazing people.

We went to do my check-in and got my stuff unpacked at the hotel, it was huge and the room I got was very cosy. Then we went on a ride around the city, everything went as expected – new food, new activity, new people, and it was all great!

(29) \_\_\_\_\_ I had another chance to go back there this year, I (30) \_\_\_\_\_ do it as this experience was memorable - (31) \_\_\_\_\_, it was my first time traveling by plane. I must tell you I was a bit scared before the flight, but once on it, I started to enjoy it!

I wish all my loved ones understood (32) \_\_\_\_\_ travelling is like! They never travel in family groups or with friends.

I guess I will print some of the pics I took during my trip to Monterrey and show them to them. Maybe it can help them feel like travelling somewhere.
