**Circle the true statements.**

1. The same way video killed the radio star, the internet is killing the TV star right now. And one of the main reasons for this: Online streaming.
2. Since streaming is clearly the future, it is no surprise that the streaming industry is now worth several million dollars.
3. But Netflix is more than just a streaming service. It now also owns its own studios and is producing many movies and series itself.
4. Apple Music has around 180 million subscribers worldwide and is increasingly also involved in the podcast business.
5. Amazon Music now has around 55 million paying subscribers.

**According to the article, match the sentences with their subtitles. You can repeat one option and there is an extra option you will not use.**
