

8. Bag power

Topic:	Atmospheric pressure and surface of things
Objective:	Students will learn about the pressure of objects. They will try to find a way to
	explain the resistance of some materials when subjected to pressure.
Vocabulary:	atmospheric, resistance, bag, straight
Materials:	- Zip-up bags (any other would have a different result)
	- Well sharpened pencils with circular shape (not hexagonal or other shape)
	- Water

Development:

• Read and look at the pictures.

- **Step 1.** Fill the bag with water, about a half, and zip it up.
- **Step 2.** Insert a pencil as straight as possible to prevent the holes from becoming too large remember the pencils must be well sharpened.
- **Step 3.** Continue inserting pencils, one by one every time you insert another one, observe what happens.

2. 3. 4.	The bag got filled with oil.
Glue	a picture of your project finished!
